tentious, but highly respectable country bank check. Hearken to the story of a bank check, which was perfectly good and scrupulously honest when it fared forth, three weeks ago, from the staid, sober, peaceful precincts of the village where it was born and reared, amid the eminently moral influences and environment of the First National Bank of North Fork, W. Va. But, alas! And eke alack!

Trailing after a theatrical attraction, it fell into bad company, and this evil association terminated in the inevitable! It became corrupted. It went crooked. Instead of meeting the just and upright R. R. Roberts, who was patiently walting for it here, the good little country bank check was diverted from its straight path by a wicked stranger lyte whose one appears.

glance and confiscated the false check. Whereupon the villain, in confusion and consternation, heat a precipitate retreat from the bank, abandoning the once good little check forever.

Real value, like truth, chrushed to earth, will rise again. And the little country bank check, now in good hands, was put again in the path of rectitude. True, there was yet travail and tribulation ahead, but the work of redemption was begun, and, as will be seen later on, the misused little check, was even then retrieving its good name. and its fair standing in banking cir-

Roberts looked upon the little country check, and at a glance discovered that all had not gone well with it. He was surprised. He was amazed. He was mystified. He couldn't understand it, the plight in which he beheld that little check from the country, at all, at all. Wherefore he hied ing teller, he asked for an explana-tion of it. What You Say Is True

Yet the fact remains that thousands of business houses do know what is going on in their stock rooms. They use L. B. perpetual stock records. That is how they know.

L. B. perpetual stock records prevent waste. They fix responsibility. They enable you to intelligently schedule your orders on the factory. And because they show what has happened, they are a mighty good guide as to what is likely to happen.

Like everything else we make, L. B. stock records are very simple. They are merely an adaptation of the "card idea."
